

Dear Parents,

Have you heard your child mention Annie Apple, Bouncy Ben or Clever Cat and wondered what he or she was talking about?

These characters, along with their friends, live in the very special world of Letterland. We use these Letterland friends to assist your child in taking the early steps along the road of learning to speak, read and write in English. These fun characters help introduce your child to the sounds that letters make in words and the shapes seen in print.

Letterland is recommended and used by schools all over the world. As such, we have once again organized a Letterland phonics and literacy workshop in September for parents to better understand how to use it in English Language development. Join us at The Activity Box Clubhouse to find out more!
